

INTRODUCTION CUE CARD

Our featured reader tonight measures his life as mired in integrity. Khristian E. Kay is a prolific writer with numerous books, chapbooks, and other forms of expression. He is a strong advocate for the truth, whatever that may be, as he often demonstrates that truth is a manifestation of social conformity. He teaches in K-12 and College and is both encouraged and dismayed for what passes as "educated" in our society. Please help me welcome an advocate for the *under-anything*, the self-appointed *vanguard for free expression*, and the guy who states that if you only walk away with only one thing tonight let it be this: "*Question Everything.*"
